**PARTNERSHIP FOR  
MULTINATIONAL  
PRACTICE ENTERPRISE**

**Co-funded by  
the European Union**

**KA210-VET-6A713A02**

**ERASMUS+ KA210-VET - Small-scale partnership in vocational education and training**

**Project title:** Partnership for Multinational Practice Enterprise

**Short title of the project:** INCLUDE

**Project duration:** from 1 April 2022 to 29 February 2024

**Lump sum budget of the project:** 60.000 Euro

The project is targeted at student-led, student-run, practice-oriented vocational training, simulating real business environments in the form of a practice enterprise (PE). The INCLUDE project aims to develop innovation by developing a concept that will enable PEs to set up international branches. The idea behind the project is to open up an innovative way for vocational students to experience working with students from other countries, running cross-border training firms, operating parts of a joint company in different countries, even at different partner schools.

The methodology guide, as a project result, is available [here](#).
